EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Salima A. Merani on 9/28/2006.

The application has been amended as follows:

Claim 9 was canceled.

EXAMINER'S COMMENT

2. The Notice of Allowance is responsive to applicant's amendment filed 7/11/2006. The amendment and arguments, see pages 5-7, filed therein has overcome the rejection of claim 1, under 35 USC 102 (b) or in alternative under 103 (a) mailed on 1/13/2006. Therefore, the rejection of claim has been withdrawn.

3. The following is a statement of reasons for the indication of allowable subject matter:

The art of the record fails to teach a method of locating an opening in an outer layer, where the outer layer comprises bony or spinal tissue, where a distal end of a probe member is being advanced and retracted through a curved slot at the distal end of the cannula via longitudinal movement of the advancer within the cannula.

For these reasons, the claims are allowable over the art of record.
